

ORIGINAL EU DECLARATION OF CONFORMITY

We **STARLINE S.p.A. - Via dei Livelli di Sopra, 11 - 24060 Costa di Mezzate (BG) - Italy**

Declare under our sole responsibility that the product:

FORGED BALL VALVES TYPE FLOATING AND TRUNNION MOUNTED,

To which this declaration relates complies with the following Directives:

Pressure Equipment Directive (PED) 2014/68/EU

All the Starline Floating and Trunnion Mounted Ball Valves in forged carbon, alloy and stainless steels up to DN 900, class 150 to 2500 are designed, manufactured, tested to the requirements of the PED Directive 2014/68/EU:

Module H

ID No. **2580**

Certificate No. **H-2016/L/058**

TUV NORD Italia S.r.l. Via Pisacane, 46 20025 Legnano (MI) Italy

And are suitable for dangerous and non-dangerous liquids and gases according to Art.4 c) i. and ii. and the Product Declaration of Conformity.

The supplied valves, with a nominal dimension $DN \leq 25$ are excluded from CE marking requirements for which we hold Certification. We hereby confirm that those products comply with Article 4 section 3 of the PED Directive 2014/68/EU and have been designed and manufactured in accordance with Sound Engineering Practice (SEP).

Atex Directive 2014/34/EU

All the valves manufactured by Starline Spa are designed, assembled, tested and classified according to the Atex Directive 2014/34/EU. All valves have a unique serial number for full traceability.

Their use in areas with potentially explosive atmosphere is subject to the classification indicated on the label and in compliance with relevant ATEX safety instructions.

Group IIC (Gas)   II 2 G Ex h IIC T6... TX Gb X

Group IIIC (Dust)   II 2 D Ex h IIIC T85°C... TX Db X

The conformity is under observance of the following standards or normative documents:

- EN 1127-1:2011
- EN 80079-36:2016
- EN 80079-37:2016

Technical File: ST01 ATEX (Trunnion and Floating Type)

Machine Directive 2006/42/EC (Art.13)

All the valves manufactured by Starline Spa meet the basic health and safety requirements.

When the valve is lever/gear operated the valve cannot be considered a "machinery" (Art.2 a)

When the valve is supplied with an actuator, it can be classified as "Partly completed machine" (Art.2 g) and Annex II-part B). They shall not be put into service until the final machinery into which it will be incorporated has been declared in conformity with this Directive. For the use, installation and maintenance of the Starline Floating and Trunnion Mounted Ball Valves, see the instructions listed in the Maintenance Manual provided with the valves.

The person authorized to compile the Technical File is Mr. Marco Ghilardi
